

## **Narges Khanjani; MD, PhD**

Associate Professor  
Dept of Epidemiology and Biostatistics & Dept of Environmental Health  
Faculty of Public Health  
Kerman Medical University (KMU),  
Haft Bagh Alavi Highway,  
Kerman, IRAN, 76169-11317

Honorary Research Fellow  
Monash Centre for Occupational & Environmental Health  
School of Public Health and Preventive Medicine,  
Monash University,  
Melbourne, Australia

Mail (business): P O Box 531-76175, Kerman, IRAN  
Mail (private) P O Box 1131-76185, Kerman, IRAN

## **EDUCATION**

- June 2002 to August 2006: Doctor in Philosophy (**PhD**), Monash University, Melbourne, Australia.
- Feb 1992 to March 1999: Doctor of Medicine (**MD**). Tehran University of Medical Sciences and Health Services, Tehran, IRAN.

## **SCHOLARSHIPS, DISTINCTIONS, GRANTS AND AWARDS**

- March 19, 2014: Top Researcher of the Province Award. Kerman Province County.
- December 18, 2013: Top Researcher of the Faculty of Health Award. Kerman University of Medical Sciences.
- December 2008: Young Researcher Award. Kerman University of Medical Sciences.
- April 2006: Young Asian Environmental Epidemiologist Award, the First East Asia Conference of the International Society of Environmental Epidemiology in Taipei, Taiwan.
- Sept 2005: Postgraduate Travel Award by Monash University, for attendance and paper presentation at the 17<sup>th</sup> ISEE Conference in Johannesburg, South Africa.

- Sept 2005: Awarded Travel Grant by the ISEE for attendance and paper presentation at the 17<sup>th</sup> ISEE Conference in Johannesburg, South Africa.
- June 2000: Awarded a Four-year Scholarship by the Iranian Ministry of Health and Medical Education to study PhD in Epidemiology abroad.

## POSITIONS

- from Feb 2010 until now: Editor in Chief, Journal of Health and Development, Kerman Medical University, Kerman, IRAN.
- from April 2010 until now: Head of the Environmental Medicine Research Committee, School of Public Health, Kerman Medical University, Kerman, IRAN.
- from Dec 2009 until Sept 2011: Head of the School of Public Health, Kerman Medical University, Kerman, IRAN.
- from October 2007 until February 2015: Head and Coordinator of the MPH (Master of Public Health Unit), Kerman Medical University, Kerman, IRAN
- from May 2007 until now: Academic at The Dept of Epidemiology & Biostatistics, Kerman Medical University, Kerman, IRAN
- from Dec 2008 until now: Adjunct Academic at The Dept of Environmental Health, Kerman Medical University, Kerman, IRAN
- from Sept 2006 until now: Honorary Research Fellow, Monash Centre for Occupational & Environmental Health, School of Public Health and Preventive Medicine, Monash University, Melbourne, Australia.

## MEMBERSHIPS

- from Sept 2006: Member of the Iranian Association for Environmental Health. [www.iaeh.org](http://www.iaeh.org).
- from July 2006: Member of the Collaborative on Health and the Environment, <http://www.healthandenvironment.org/>
- Member of the Iranian Epidemiology Association (IrEA), <http://www.irea.ir/>
- from January 2006: Member of International Society for Environmental Epidemiology (ISEE), <http://www.iseepi.org/>.
- from January 2006: Member of International Epidemiological Association (IEA). <http://www.ieaweb.org/>
- from January 2005: Member of the Cochrane Collaboration, <http://www.nottingham.ac.uk/~muzd>.
- from March 1999: Member of the Iranian Medical Council, <http://www.irimc.org/>

## RESEARCH

### THESES SUPERVISED / COSUPERVISED

1. The Fungi Flora of Healthy Nasal Mucosa in Kerman, Iran. Student: Dariush Nasiri, Winter 2010, for the Specialist degree in Otorhinolaryngology.
2. Prediction of hearing threshold decrease in the workers of the Shadris Textile Factory in Yazd, according to job type and the job history by the ISO1999 method. Student: Reza Jafari Nadooshan, Spring 2010, for the Masters degree in Occupational Health.
3. The prevalence of allergy to Aspergillosis in patients with nasal polyposis visiting the ENT clinic of Shafa Hospital. Student: Masoud Keshavarz, Spring 2011, for the Specialist degree in Otorhinolaryngology.
4. The rate of desire to do rhionoplasty in female high school students of Kerman and their knowledge about rhinoplast complications. Student: Mobina Eslami, Summer 2011, for the MD degree.
5. The experience of ICU personnel and families of organ donation and influencial factors. Student: Hakimeh Hosein Rezaei, Summer 2011, for the Master in Public Health (MPH) degree.
6. Evaluation of tractor drivers' exposure to noise. Student: Farshad Nadri, Summer 2011, for the degree of Masters in Occupational Health.
7. Evaluation of the transmission routes of the HIV virus in people infected with HIV in Sirjan, Kerman. Student: Mahin Behzadpour, Summer 2011, for the Master in Public Health (MPH) degree.
8. The association between climate and tuberculosis in Kerman from 2006 to 2010. Student: Seddegheh Fallah Khoshghalb, Winter 2012, for the Master in Public Health (MPH) degree.
9. The association of urogenital disorders and neonatal death in pregnant women in Zahedan Province in 1387. Student: Shahin Naderian, Winter 2012, for the Master in Public Health (MPH) degree.
10. A study of Kerman sex workers and their interaction with other high risk groups such HIV positives, by RDS. Student: Soudabeh Navadeh, Winter 2012, for the Master in Public Health (MPH) degree.
11. The knowledge and practice of medical staff about needle injuries in Rafsanjan's Ali-ebne-Abitaleb Hospital, Iran. Student: Mohsen Nejad Ghaderi. Winter 2012, for the Master in Public Health (MPH) degree.
12. Evaluation of lung dysfunction and silicosis in Kerman Stonecarvers in 1389. Student: Ahad Ashrafi, Summer 2012, for the degree of Masters in Epidemiology.
13. Evaluating the level of drug services in the pharmacies of Kerman city according to the indices and the factors related to it. Student: Ali Baloochi Reza Abad, Summer 2012, for the Doctorate in Pharmacy degree.
14. Evaluation of patient compliance in diabetic patients visiting the endocrine clinic of Afzalipour Hospital, Kerman, in 1389. Student: Mahdiah Mashrooteh, Summer 2012, for the Master in Public Health (MPH) degree.

15. The effect of ear plugs on the amount of catecholamines excreted in workers exposed to noise at the Sarcheshmeh Copper Complex. Student: Somieh Rahimabadi, Winter 2012, for the degree of Masters in Occupational Health.
16. The rate of preventable mortality in Iran. Student: Parvaneh Esfahani, Winter 2013, for the degree of Masters in Health Management.
17. A survey of the demographic characteristics of skin cancer in Kerman, in comparison to Australia and predicting its 10 year trend. Student: Leila Dehghani, Winter 2013, for the degree of Masters in Epidemiology.
18. Factors related to delay in seeking treatment in patients with breast cancer. Student: Hadis Rastad, Winter 2013, for the degree of Masters in Epidemiology.
19. The relation between opium use and upper GI cancers in Kerman in 87-87. Student: Ahmad Naghibzadeh Tahami, Winter 2013, for the degree of Masters in Epidemiology.
20. The relation between ADHD and trauma in motorcycle riders of Kerman. Student: Saeed Safiri, Spring 2013, for the degree of Masters in Epidemiology.
21. Controlling silica and lime dust by using local ventilation in the emergency exit of the mixing unit of Sarcheshmeh copper complex. Student: Abbas Mozaffari, Summer 2013, for the degree of Master in Occupational Health.
22. A survey of emotional intelligence in Addicts of Rafsanjan. Student: Ali Asghar Ranjbar Totoei, Summer 2013, for the Master in Public Health (MPH) degree.
23. Evaluating the effect of Islamic fasting during Ramadan on body composition, lipid profile and caloric intake using systematic review and meta-analysis techniques. Student: Behnam Sadeghi, Autumn 2013, for the Master in Public Health (MPH) degree.
24. Evaluating the pattern of prescribing anticoagulants by orthopedic surgeons in patients with fractures admitted at Kerman University Teaching Hospitals. Student: Maryam Rameshk, Winter 2014, for the Master in Public Health (MPH) degree.
25. The effect of education based on the HBM in control and caring high blood pressure in patients. Student: Reza Sadeghi, Winter 2014, for the degree of Master in Health Education.
26. Self empowerment of women visiting the health centers of Kerman by teaching breast self examination. Student: Monireh Sabbagh, Winter 2014, for the degree of Master in Health Education.
27. The survival rate of patients with stomach cancer and its related factors in the Kohkiluyeh and Boyer-Ahmad Province. Student: Hedayatollah Jamali, Winter 2014, for the degree of Masters in Epidemiology.
28. The effect of air pollution and temperature on respiratory and cardiovascular mortality in Shiraz. Student: Monizheh Dadbakhsh, Spring 2014, for the degree of Masters in Epidemiology.
29. The prevalence of metabolic syndrome and its associated factors in patients with type 2 diabetes and comparing the prevalence of CTS and the characteristics of the median nerve in diabetic patients with and without metabolic syndrome. Student: Zohreh Foroozanfar, Spring 2014, for the degree of Masters in Epidemiology.
30. The effect of injecting botulinum toxin in the sub mucoperiosteum of the nasal septum in decreasing the symptoms of non allergic idiopathic rhinitis and continuous allergic rhinitis. Student: Mehdi Abna, Spring 2014, for the Specialist degree in Otorhinolaryngology.

31. Designing pictographs for teaching compliance of medical orders in illiterate diabetic patients. Student: Marzieh Hasani Kabootarkhani, Spring 2014, for the degree of Master in Health Education.
32. The effect of temperature, humidity and rainfall on malaria incidence in Kerman, Hormozgan and Sistan and Baloochestan provinces. Student: Minoo Mohammaddkhani, Spring 2014, for the degree of Masters in Epidemiology.
33. The relation between health literacy and general health in the elderly of Kerman. Student: Vahid Reza Borhaninajad, Summer 2014, for the Master in Public Health (MPH) degree.
34. The effect of climatic factors in the incidence of congenital hypothyroidism and forecasting its 10 year incidence. Student: Ahmad Ahmadzadeh, Summer 2014, for the degree of Masters in Epidemiology.
35. Evaluating the effect of educational intervention based on the Expanded Socio-Ecological Model based on modern media in improving physical activity in women visiting health centers of Kerman. Student: Hadi Tehrani, Summer 2014, for the degree of PhD in Health Education.
36. The relation between adenoid size and the amount of respiratory tests change before and after tonsillectomy in children. Student: Hosein Shakeri, Summer 2014, for the Specialist degree in Otorhinolaryngology.
37. Evaluating stress and heat strains in the refinery and melting units of the Sarcheshmeh copper complex. Student: Ali Akbar Alinaghi, Summer 2014, for the degree of Master in Occupational Health.
38. Evaluating the validity and reliability of the short Kansas and Enrich marital satisfaction questionnaires. Student: Alireza Arab Alidoosti, Summer 2014, for the Master in Public Health (MPH) degree.
39. Forecasting the changes in tuberculosis incidence, determining the rate of recurrence and the survival of tuberculosis patients and explaining the situation of the surveillance system for at risk groups in Iran. Student: Mahmoud Moosazadeh, Summer 2014, for the degree of PhD in Epidemiology.
40. Cultural adaptation and psychometric assessment of the adolescent road users' behavior questionnaire (ARBQ) in Tehran. Student: Amir Reza Nabipour, Winter 2015, for the degree of Masters in Epidemiology.
41. Evaluating the prevalence and burden of disease related to risk factors leading to injuries in insured construction workers in Iran in 2012. Student Seyed Esmail Hatami, Winter 2015, for the degree of Masters in Epidemiology.
42. The association between thermal and physiological indices in the workers indices in the workers of an open mine in 2015. Student: Sajjad Salimi, Winter 2015, for the degree of Masters in Occupational Health.
43. Factors related to survival in children with acute leukemia in Kerman Province diagnosed from 1998-2009. Student Maryam Parvareh, Winter 2015, for the degree of Masters in Epidemiology.
44. The relation between emotional intelligence and resiliency in cancer patients and exploring the psychological and mental experiences of cancer patients. Student: Reza Abdollahzadeh, Winter 2015, for the degree of Masters in Epidemiology.
45. The effect of educational intervention based on the BASNEF model on huka use among the dormitory students of Kerman Medical University. Student: Victoria Momeabadi, Winter 2015, for the degree of Masters in Health Education.

46. The reason for treatment failure in patients using methadone maintenance therapy in the Bazgashte-Sabz Rehabilitation Center of Rafsanjan, 2011-2013. Student: Ali Riyahi, Winter 2015, for the Master in Public Health (MPH) degree.
47. Evaluating the barriers for applying research results in medical practice of Rafsanjan Physicians. Student: Fatemeh Kordestani, Winter 2015, for the Master in Public Health (MPH) degree.
48. Evaluating the effect of using alcohol and opium derivatives in car accidents leading to injuries among patients visiting the emergency departments of Shahid Rajaei (Trauma) Hospital of Shiraz; by case cross over method. Student: Masoumeh Moosavi, Winter 2015, for the degree of Masters in Epidemiology.
49. Evaluating the factors related to survival of patients with colon cancer in Shiraz. Student: Mohammad Zare, Winter 2015, for the degree of Masters in Epidemiology.
